

## Help shape health, social care and wellbeing services in the City of London

The City of London Corporation and the City and Hackney Clinical Commissioning Group (CCG) are starting to plan health and social care services for the City.

We want to hear from you to make sure we best meet the needs of City residents through the services we commission and provide in the year ahead.

### Share your views with us

We're holding a 'Commissioning Intentions' drop-in session on **Wednesday 24 February (12 noon-2.30pm)** at the Bishopsgate Institute (230 Bishopsgate, London, EC2M 4QH). Everyone is welcome to join us in discussing our priorities for 2016-17.

This event will bring together members of the public, patients, stakeholder groups, service providers and commissioners as well as the local authority.

We're particularly interested in hearing your views on what:

- you think the most important health issues for local residents and workers are
- local health services you think should be prioritised, at a time when health budgets are shrinking
- you want local health services to look like in the City of London.

### How to book your place

Please contact Eeva Huoviala on **020 7683 4222** or email: [eeva.huoviala@nhs.net](mailto:eeva.huoviala@nhs.net) by 12 noon on Monday 22 February.

Lunch and light refreshments will be provided on the day.
